

Where Should I Park?

Spanish Oaks Community

Your Garage

Community guidelines state that garages are to be used for storing cars. This not only keeps your vehicle secure, less clutter on the streets adds to the safety of the community.

Your Driveway

Utilizing the driveway is the next option. Some homes on the Plazas have driveways too short for vehicles, so we understand this is not an option for all community members.

The Calles

When parking on the Calles, the rule of thumb is to park in front of your home. Please follow guidelines on painted curbs--no parking on red curbs--and make sure your vehicle is less than 18 inches from the curb & parked with traffic.

The Parking Spots on the Plazas

If the previous options have been exhausted, please use the parking spots on the Plazas.

Questions regarding parking? Contact the HOA Board.
